DETAILED ACTION

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 10/09/03 has been considered by the examiner.

Additional Prior Art Cited

Drake, Neukermans et al and McClelland et al each discloses a micromachined torsional scanner.

Minor Changes/Corrections Made

The title on the abstract sheet has been deleted. See attached page 33. And --10/682,015-- has been inserted after "Serial No." in paragraph 0002, page 1, of the specification. See attached page 1.

Informal Examiner's Amendment

An informal examiner's amendment to the record appears below to correct an obvious error in claim 1 so as to make the claim clearer. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claim 1, line 3, "mirror" has been deleted.

Allowable Subject Matter

Claims 1-31 are allowed. See attached claim 1 on page 28.

The following is an examiner's statement of reasons for allowance: none of the cited references teaches or fairly suggests a multilayered torsional hinged resonant pivoting device having "a back layer mounted on said back side of said attaching member and having a mass moment substantially equal to and opposite said known mass moment of said front layer, such that the center of mass of the combined front and back layers is substantially coplanar with the first axis of rotation and the moment of inertia of said multilayered torsional hinged device is substantially centered on said axis of rotation" (claim 1, last paragraph) in combination with the remaining features of the claim. Claims 2-31 are dependent claims and thus allowable at least for the same reason.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James Phan whose telephone number is (571) 272-2317. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Drew Dunn can be reached on (571) 272-2312. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
